The Ultimate Heart Health Probiotic

A probiotic dietary supplement specifically designed to help promote a healthy heart. Kibow Cardio Support's main ingredient, Floradapt™, helps maintain cholesterol levels, HDL and LDL, that are already in the normal range.* Kibow Cardio Support contains a patented blend of probiotics. The three strains of L. plantarum has been studied for their own unique heart health benefits. Kibow Cardio Support also helps maintain a healthy balance of gut microflora.

Healthy Gut, Healthy You®

Gut health is becoming increasingly important. Your gut is considered to be your second brain, so it's important to start taking care of your gut today. If the gut balance can be restored through repopulating the good bacteria, the gut can become healthy again.

Health Benefits

- ♥ Supports heart health*
- ♥ Promotes healthy gut microflora*
- ♥ Improves digestive health*
- ♥ Supports healthy total cholesterol, LDL & HDL, already in the normal range"
- ♥ Supports healthy lipid oxidation status*

Improve Overall Wellness

Wellness begins with good health which, in turn means having a healthy gut microbiome. 80-85 % of the immune system resides in the gut, so a healthy gut equals a healthy you. If the gut balance can be restored through repopulating the good bacteria, the gut can become healthy again.

Ingredients Breakdown

Floradapt™ - Floradapt™ is made up of three highly studied strains of *L. plantarum*. These specific strains have been tested to withstand the acidic environment of the stomach and intestines. The strains in Floradapt™ include:

- L. plantarum KABP™-011
- L. plantarum KABP™-012
- L. plantarum KABP™-013

Why cholesterol health is important

Cholesterol is a naturally occurring fatty compound produced by the liver which is used to make hormones and build cells. Other cholesterol comes from foods like meat, cheese, and dairy.

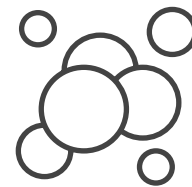

Cholesterol circulates in the blood, and when there is too much of it, it may lead to health risks down the road. Too much cholesterol can cause a build up in the arteries, which causes the arteries to narrow. This may lead to a heart attack or stroke.

The strains in Kibow Cardio Support have shown to help remove cholesterol from food, which is then removed as regular waste. This may help regulate the amount of cholesterol circulating within the blood.

Side-Effects

Probiotics are generally recognized as safe for consumption. Kibow Cardio Support should only be taken once a day, or as recommended by your healthcare provider. Side effects, if they occur, are mild (such as gas or flatulence) and usually disappear after two or three weeks of continuous usage.

Our Product is manufactured in cGMP facility that also process products containing peanuts, tree nuts, seeds, grains, eggs, crustaceans and dairy products. Consult with your health care professional if you have any specific allergy concerns.

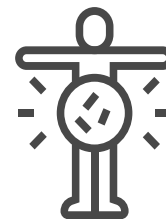

All-Natural

Kibow Cardio Support is all-natural probiotic dietary supplement designed to help you feel your best. Kibow Cardio Support is protected in capsules. Kibow Cardio Support is non-GMO, gluten free. All Kibow® products are made with all-natural ingredients.

Things to Remember

Kibow Cardio Support works best when taken once daily and also paired with a healthy diet and lifestyle. Everyone's gut microbiome is unique, so probiotics may work differently from person to person. Always consult with a healthcare professional before starting any new supplement.
